About Me

Hi! I'm a 13th-grade student who's enthusiastic about Math and Computer Science. Interested in Machine Learning, Crypto, devising a better problem-solving method for challenging tasks and learning new technologies and tools if needed. Currently working for Live Coin Watch as a junior developer.

Skills

Programming Languages C/C++, Python, Java, JavaScript, React.js, Next.js, HTML, CSS, \LaTeX
English, Spanish

Extracurricular

Bibico Electric Inc.

Burlington, ON, Canada

VOLUNTEERING

Dec. 2019 - Feb. 2020

Part of the team who worked on completely digitizing the company's inventory.

Job Info: Most of the documentation was stored in hand-written word documents and spreadsheets where data inconsistencies were often present. I built an easy-to-use system that helped find and resolve those inconsistencies automatically based on 2D bar code and scanners.

DUC App

Online

INTERNSHIP

Summer 2021 - Present

Built the entire Web API page of the company. Currently implementing the endpoints on staging to make it work perfectly. Please feel free to check out the unfinished [website](#).

Part of the team that is working on the back-end endpoints.

Technologies used: Javascript, HTML, CSS, JSON, Swagger, Postman, Docker, Amazon AWS

School Computer Science Club

Westdale S.S.

FOUNDER AND INSTRUCTOR

Sept 2021 - Present

Prepared presentations and weekly lessons for club meetings to increase club members' interest in computer science and taught vital computer science concepts, such as graph theory and data structures.
